BEEFMASTER BEEF ON FORAGE GENETICS

9.18.2026 | 12:00 PM | Arcadia Stockyard | Arcadia, Florida

In a continuous effort to expand the Beefmaster market and make a bigger footprint with Quality "Beef on Forage" bulls, we will be bringing 110 top-end bulls to Arcadia, Florida. For over 30 years the Beef on Forage Program has been supplying top quality bulls to some of the most progressive cattlemen in the industry. This will be your opportunity to buy bulls conveniently located in Florida.

The offering will be from the top end of 367 bulls that started our test. All bulls have undergone our Bull Development Trial and then turned out in big pastures to help acclimate to a real-world environment. We will be supplying you with **current weights, scrotal measurements, EPDs, scan data and test data**. Each bull will also sell with our unique **fleshing ability scores**. This will enable you to pick the right bulls to fit your environment.

More information and pictures will be available on line at www.BeefmasterBullSale.com or by following us on Facebook - Beefmaster Bull Sale.

I look forward to you seeing this QUALITY set of Beefmaster bulls! Please do not hesitate to contact me with any questions you might have.

Derek Frenzel
254.541.4643 | derekfrenzel@aol.com

Sale Schedule:

WEDNESDAY, SEPTEMBER 16TH
All day viewing of bulls.

THURSDAY, SEPTEMBER 17TH
All day viewing of bulls.
6:30 pm - Dinner at sale facility

FRIDAY, SEPTEMBER 18TH
11:00 am - Lunch available
12:00 pm - BULL SALE

Hotel Accomodations:

SALE HEADQUARTERS
Holiday Inn Express | (863)494-5900
Ask for the "Bull Sale" block

Sale Location Address:

2719 NE Earnest St | Arcadia, FL 34266
Located on Hwy 17
(8 miles north of Arcadia)

Sale Day Announcements:

Cattle will sell in catalog order and will be run thru the ring. Phone bidding and DVAuction will be available.

Over 30 Years Supplying Quality Beefmaster Bulls

“Not all bulls are created equal and it’s our job to identify superior genetics.”

— *Derek Frenzel*

Fleshing Ability:

One of our customers biggest compliments is how well our bulls maintain condition after they get them home. This is not only Development but more so Genetics.

Each bull is graded on a scale of 1-5 following the first phase of our Development Test. The bulls carrying the most condition will receive a 5. Those bulls carrying slightly less flesh will be graded lower. This will enable buyers to select bulls that will better fit their environment. Our easy fleshing bulls will sire females that breed quicker and stay in the herd longer.

Big Country Bulls:

Although we strive to bring you gentle bulls, some cattle don’t like being alone after being raised in these big groups in big pastures. Please consider this with bulls marked “Big County” on the video.

Building Performance Bulls.

We understand your bull purchase is a big investment. Bulls are athletes and have to be developed accordingly. We have worked hard to create a program to keep bulls growing without falling apart when you get them home. This performance test is designed to show their genetic differences while preparing them for longevity. They will not be pampered, over fat, and will know how to utilize forges when they go to work. Much effort has been devoted to providing thorough and accurate performance data on the entire sale offering.

Can't make it?

This sale will be broadcast live on the internet.
DVAuction
Broadcasting Real-Time Auctions
Real time bidding & proxy bidding available.

www.dvauction.com

Register to create an account and watch the online bidding tutorial. Apply for bidding approval online at least 24 hours prior to the auction or call for immediate approval. A DV representative will notify you once you have been approved to purchase. After the sale, contact Derek at 254.541.4643 to arrange payment.

Contact DV Auction technical support at 402.316.5460 for any problems.

Over 30 Years Supplying Quality Beefmaster Bulls

DATA KEY

Please make note that many of the animals were in different contemporary groupings at weaning; therefore it is not fair to compare birth, weaning and yearling weights from one herd to another.

EPDs

Expected Progeny Difference (EPDs) is the best estimate of an animal's genetic merit for a particular trait. It takes into account the animal's own performance compared with its contemporaries and the performance of its relatives compared against their contemporaries.

Calving Ease (CE) Generally represent fewer unassisted births. Higher the number the better.

Birth Weight (BW) EPD Predicts calf size compared to other sires. The lower the number the smaller the calf.

Weaning Weight (WW) EPD Predicts overall growth potential from birth to Weaning. Higher the number the better.
Yearling Weight (YW) The EPD predicts overall growth potential. Higher the number the better.

Milk (MK) Predicts the maternal contribution to weaning weight of the calf

through milk production and other environmental factors.

Scrotal Size (SC) Actual scrotal circumference records, in centimeters, are adjusted for age of bull 365-days.

Ribeye Area (REA) Ultrasound scanning measurement of rib eye area. The EPD is a prediction of Total Muscle.

Intramuscular Fat (IMF) Measured using ultrasound scan technology. IMF is highly correlated to marbling

Indexes

Terminal Index (\$T) is designed to be used when bulls are mated to cows in a strictly terminal system. The EPDs that are used in the calculation of \$T are YW, REA, IMF and Fat.

Maternal Index (\$M) is designed to balance weaning weight with cow maintenance and fertility. The index includes the EPDs for BW, WW, Milk, YW and SC.

Feed Efficiency Index (\$FE) Balances post weaning growth (the growth from weaning to yearling) with the RFI EPD. This index is designed to select for animals that excel in feed efficiency and post weaning growth.

Test Data

Weight Per Day of Age (WDA) The animal's Weight Divided their days of age at that date.

Average Daily Gain (ADG) Average Daily gain over the test.

Current Weight (CURRENT WT) Weight taken prior to catalog being printed. Approximately 40 day before sale.

Fleshing Ability (FLESHING) The natural Ability for the animal to maintain condition in a working environment. Graded from 1-5. 5 being the best.

TERMS AND CONDITIONS OF SALE

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve.
2. **BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
3. **TERMS:** Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail.
4. **PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
5. **CERTIFICATE OF BREEDING AND/OR TRANSFERS:** All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
6. **HEALTH:** All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident state's requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
7. **ANNOUNCEMENTS:** Any changes in information of any kind will be announced from the auction box and such announcements shall take precedence.
8. **BREEDING GUARANTEES:** All bulls are guaranteed to have passed a Bull Breeding Soundness Evaluation (BSE) and have been certified a satisfactory potential breeder by a licensed veterinarian within thirty (30) days prior to sale date. Completed BSE will be attached to health papers at the sale. The seller makes no guarantees with respect to the ability to freeze semen.
9. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale shall constitute a contract between buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction. Neither BBU, the sale manager, nor any other person connected with the management of the sale assumes any liability, legal or otherwise, for any subsequent resale of an animal.
10. **REMEDIES:** If within one-hundred eighty (180) days from the date of sale, the bull has failed to pass a Breeding Soundness Evaluation (BSE) certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and eighty (180) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU Breeding Soundness Evaluation form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

Smarter Insurance for Pasture, Rangeland & Forage

PROTECT & POWER YOUR PASTURES

With a Florida-Raised Partner

ROOTED^{IN} Florida

Florida ranchers steward over 70% of the state's farm acres—a commitment to land, water and wildlife we share deeply. Everglades Equipment Group is proud to partner with Florida's cattlemen, providing reliable John Deere equipment built to handle tough terrain, heavy implements and daily ranch chores. Together, we're working to keep Florida cattle production economically viable and strong.
